Frigate's EMI-shielded, thermally optimized enclosures support mission-critical telecom systems. Frigate uses FEA, high-strength alloys, and precision welding to ensure enclosures withstand vibration, ...

Designed with durability and environmental protection in mind, these enclosures are ideal for industries such as telecommunications, energy storage, power distribution, and outdoor monitoring systems.

Rittal offers outdoor enclosures and the appropriate climate control features as standard, to provide maximum protection for your systems and equipment outside.

Westell offers secure, weather-tight outdoor network enclosures to protect electronic equipment for outdoor telecom networks.

It can provide reliable power supply in the case of a power failure completely in plant or substation. The traditional DC systems connect battery pack and run with float charging mode.

AZE's Outside Plant (OSP) Cabinets are robust, weatherproof enclosures designed to house and protect telecommunications, networking, and utility equipment in outdoor environments.

ETA Enclosures USA provides electrical enclosures engineered for water and wastewater treatment facilities. Our enclosures protect critical control and monitoring equipment from moisture, chemicals, ...

Purcell Systems responds with highly configurable, thermally managed outdoor rack enclosure solutions that address all power, thermal, acoustic, cabling, and quality requirements.

Charles Universal Broadband Enclosures (CUBE) are constructed to withstand the elements and provide superior protection for active electronics in all environments.
