What is a 220V power supply?

This 220V power supply is equipped with PFC, short-circuit proof and protected against over voltage and overheating. This stabilized 220V power supply can provide DC power of up to 12A and an output power of 3000W. The output voltage is adjustable at the front between 37.5V and 260V, making the power supply suitable for many purposes.

What is a power supply cabinet?

Our power supply Cabinets are designed to protect your critical equipment from power surges and voltage spikes from the toughest operation condition. Our distribution cabinets can be made from materials such as Aluminum, Steel, or Stainless Steel. We provide a variety of outdoor power supply cabinets to meet the needs of different industries.

Are our power supply cabinets UL compliant?

We make sure to meet strict industry standards when it comes to the design and manufacture of our power supply cabinets. We are compliant with the following standards: IEC 60297,UL 508A,NEMA 250. Our facility is manned by industry-leading experts in the field of power supply and control.
