Biocell Water containerised wastewater treatment plants offer a fast and effective above ground portable wastewater treatment system solution for any site, without the need for any existing infrastructure.

BioKube offers containerized wastewater treatment plants for easy setup and relocation. This solution is ideal for remote locations such as mining camps and oil rig sites.

Wastewater treatment in remote and off-grid areas poses unique challenges due to limited infrastructure and resources. This article explores the relevance and importance of providing ...

Containerized Units: Wastewater treatment in a compact, package form for ease of movement and installation. They posses highly advanced technology and can easily be dispatched in distant places ...

Our containerized wastewater treatment plants are completely modular. The plants arrive pre-piped, wired, insulated and heated. We handle the installation enabling you to treat your wastewater only ...

The Solar Wastewater Treatment Plant harnesses solar energy to ...

The Solar Wastewater Treatment Plant harnesses solar energy to power a full water treatment system, making it ideal for off-grid or environmentally-conscious facilities.

Our turnkey water module is a water purification system using ultrafiltration.

Upgrade to an off-sewer, off-energy grid modular wastewater treatment. Augment an existing system, add redundancy to your infrastructure, or provide sanitation where needed with minimal operating ...

5MW Off-Grid Solar Containerized Wastewater Treatment Plant in Afghanistan

We unlock the productive value of treated wastewater. By treating sewage onsite, capturing biogas for energy, and reclaiming water, Laguna Innovation turns treatment costs into savings and ...

Fluence offers highly efficient decentralized wastewater treatment solutions with its Aspiral(TM) line of containerized plants based on membrane aerated biofilm reactor (MABR) technology for high nutrient ...
