These container energy storage systems are ideal for demanding applications where other sources might be inefficient or unpredictable. All this is possible making operations easy thanks to our ECO ...

A team of researchers from the Massachusetts Institute of Technology (MIT) and the University of Nairobi are designing affordable off-grid cold storage units for perishable crops in Kenya, using ...

Portable solar powered cold store is an innovative new solution we aptly named "Solar Freeze", which enables smallholder farmers to store temperature sensitive fresh agricultural produce.

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency

Designed for Plug and play operations, the ZSC range of mobile solar power is easy to setup and commission. The compact container is easy to transport and is a low maintenance asset on site.

Solar container for agriculture delivers clean, reliable power to farms, cutting costs and supporting sustainable farming in remote areas.

Advanced lithium battery energy storage systems for reliable backup power, peak shaving, and load shifting. Reduce electricity costs significantly. Future-ready electric vehicle charging stations powered ...

Both our container system and container expansions are often utilised in camping and glamping sites, construction sites, remote industrial units and anywhere that requires self-sufficient energy generated ...

Highjoule delivers advanced solar & energy storage solutions in Kenya, offering residential, commercial, and industrial systems to support sustainable energy development.

600kW mobile energy storage container for farms in Kenya

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency ...
