How many countries are in the UN General Assembly?

The advent of decolonisation fulfilled this expectation and the UN General Assembly currently has 193 member states. 105 Many of the trends which first came to prominence in the nineteenth century have continued to this day.

Which countries dominate the Asia-Pacific feed-in market in 2023?

The market in Asia-Pacific will continue to be dominated by the two largest countries, China and India, representing a combined 79% of the region's 2023 installations. The market in China has now finalised its transitional phase from feed-in tariffs to auctions and non-subsidised systems.

Which countries have net metering schemes?

Countries such as Malaysia, Indonesia, Thailand, and Singapore have net-metering schemes in place and other incentives to promote rooftop solar installations in the residential, commercial, and industrial sectors.

Which continent has the most installed capacity per inhabitant?

Europe is now the most represented continent, with three players appearing in both rankings. Few changes took place in the top 5 markets in terms of installed capacity per inhabitant. The podium remains the same with Australia (1,191 W/capita) leading, ahead of The Netherlands (1,029 W/capita) and Germany (815 W/capita).
