As a leading aluminum extrusion manufacturer in China, we excel in providing high-quality aluminum profiles specifically tailored for the solar panel mounting industry and other diverse applications.

Constructed with a corrosion-resistant aluminum alloy, this frame/ bracket exhibits outstanding load-bearing strength, guaranteeing optimal performance over extended periods in various outdoor ...

Whether it's a large-scale solar farm or a small residential solar setup, our profiles provide the perfect solution for securely mounting solar panels, optimizing their exposure to sunlight for maximum ...

Whether for new installations or system upgrades, aluminum profiles for solar panel frames offer a cost-effective, durable, and sustainable solution for businesses seeking reliable solar mounting options.

With their lightweight yet robust nature, aluminum profiles offer versatility in design and ease of installation, making them a preferred choice for solar mounting systems. Their corrosion-resistant ...

A deep analysis of the advantages and applications of aluminum profiles in photovoltaic brackets, panel frames and tracking systems, highlighting their features such as light weight, high strength, corrosion ...

Extruded aluminium profiles make PV mounting faster, easier, and more reliable. We design and supply low-carbon aluminium rails, frames, and click-and-plug connections that cut ...

HTS-ALU is a leading aluminium extrusion manufacturer based in China, specializing in solar panel aluminium profiles. We offer comprehensive production capabilities, including extrusion, mold ...

Products include photovoltaic frames, brackets, and other components. Currently, it can produce more than 20,000 tons of photovoltaic products per year. Explore high-quality photovoltaic aluminum ...

Aluminum Profile Photovoltaic Bracket Company

Aluminum profiles designed for solar mounting systems and PV structures. Factory production with stable quality, anodized finish, and OEM support for solar projects.
