The FlexiO series is a highly integrated battery energy storage system (BESS) designed to optimize performance and reduce costs for stationary commercial and industrial energy storage applications.

Application: Suitable for small and medium-sized industrial and commercial energy storage system scenarios, which can be used for peak and valley arbitrage, peak cutting and valley filling, standby ...

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC ...

The core components of these systems include PCS, lithium-ion batteries and energy management systems. These "turnkey" ESS solutions can be designed to meet the demanding requirements for ...

With an all-in-one design for both AC and DC components, these systems are factory pre-assembled and tested, eliminating the need for complex on-site PCS installation or wiring.

Prevent disruptions, overcharging, and overdischarging while optimizing battery performance. Our integrated system monitors cell voltage, temperature, and connects to Multi String Control Units for ...

Our offering extends beyond the battery storage system itself. We provide full, turnkey high-voltage grid integration, leveraging our world-class portfolio of substations, transformers, and Blue HV products ...

Delivering high-performance and highly reliable battery energy storage cabinets, integrating customized enclosures with smart system solutions to ensure stable operation of critical equipment across ...

By seamlessly integrating leading brands hybrid inverters into the IP55-protected battery cabinet, a compact, easy-to-install, and high-performance turnkey energy storage system is achieved. This ...

Battery Storage Cabinet AC DC Integrated Turnkey Project

Built, tested and optimized for the North American market for commercial projects. Equipped with integration controls for solar PV and generators. Backup power-ready and designed to support onsite ...
