Plans for 1 GW of new solar in Serbia are set to go ahead after the signing of an implementation agreement.

Quick Summary: As Belgrade embraces renewable energy solutions, advanced energy storage systems are becoming critical for grid stability and cost efficiency. This article explores applications, market ...

There are exponential opportunities for energy storage investments to facilitate the green transition, main developers and operators in Southeast Europe said at Belgrade Energy Forum.

Turkey-based developer and IPP Fortis Energy has acquired a solar and battery energy storage system (BESS) project in Serbia. The company plans to begin construction at the project, in ...

Belgrade's photovoltaic energy storage project bidding has become a focal point for global renewable energy developers. With Serbia aiming to generate 40% of its electricity from renewables by 2040, ...

Turkish renewable power developer Fortis Energy has acquired a 180MWac solar project in Serbia, with plans to add a battery energy storage system (BESS) to the facility. The company ...

Summary: Belgrade's ambitious 100 billion energy storage projects aim to transform Serbia into a regional leader in renewable energy integration. This article explores the scope, technologies, and ...

A sudden power outage hits Belgrade during peak tourism season. Hotels lose AC, traffic lights go haywire, and ice cream shops face a meltdown (literally). Enter mobile energy storage - the ...

The city's new 140MW photovoltaic + storage project isn't just another solar farm - it's Serbia's first large-scale marriage of solar generation with lithium-ion battery storage.

While Tesla's Megapack gets all the headlines, Belgrade's Tauron Group just deployed Europe's first saltwater-based flow battery system. It's storing enough energy to power 20,000 homes - basically ...
