While Berlin may not be the sunniest city in Europe, the potential for solar power is immense. The rooftops of residential, commercial, and public buildings offer ample space for solar ...

Berlin introduced the solar mandate to unlock the city's rooftop solar potential and contribute to climate goals. Since 1 January 2023, new buildings and major roof renovations on ...

At Germany's largest PV industry conference, held November 26 to 27, 2024 in Berlin, more than 600 representatives from industry and politics came together to discuss the challenges ...

With the Solarcity master plan, the state of Berlin is pursuing a 25 percent share of photovoltaics in electricity generation by 2035. The capital region is also home to top international expertise in solar ...

The year 2023 marked a turning point for the solar industry in Germany. It was a year characterized not only by record-breaking growth in solar installations, but also by increasing public ...

Die Berliner Wirtschaftssenatorin Franziska Giffey will trotz anhaltenden Spardrucks beim Ausbau der Photovoltaik nicht kürzen. "Wir sind Solarmeister", erklärte die SPD-Politikerin unter ...

The city of Berlin has launched a generous subsidy to encourage people to adopt solar, offering up to EUR500 for a single plug-and-go panel. Almost 10,000 people have applied for the funding ...

Compared to solar thermal energy, there are far more photovoltaic systems registered in Berlin. As of July 7, 2023, 20,985 systems were in place, with a total installed capacity of around 230 MWp.

Berlin's mandate for solar installations on new and renovated roofs has spurred rapid rooftop expansion, but the German capital remains far from its 2035 clean energy goal.

Berlin solar industry

Berlin is focussing on solar energy - and also on educating and activating Berliners themselves. Various consultations and incentives, such as a subsidy of up to 500.00 Euro for ...
