This is a list of electricity-generating power stations in the U.S. state of Massachusetts, sortable by type and name. In 2023, Massachusetts had a total summer capacity of 12,850 MW through all of its ...

The Boston Edison Power Station is a historic power station at 374 Homer Street in Newton, Massachusetts. Built in 1904 and twice enlarged, it is a significant reminder of the city's early electrification efforts, providing power to both area buildings and the local streetcar network. The building was listed on the National Register of Historic Places in 1990. It presently serves as a power distribution hub.

The Boston area now has six full-time 50,000 watt AM radio stations. That's more than any other U.S. market except NYC which has eight. Chicago and San...
