Will Massachusetts help Boston-power build a new energy storage facility?

Enabling energy storage to continue to flourish in Massachusetts, state officials are working closely with Boston-Power to pursue state and federal financial incentives that will help the company to fulfill its plans of building the Auburn facility.

Where is the world's most advanced battery manufacturing facility located?

Boston-Power, Inc. announced that the company is working to build what it describes as one of the world's most advanced battery manufacturing facilities in Auburn, Massachusetts.

Where are lithium-ion batteries made?

Currently, nearly all lithium-ion batteries in the world are manufactured in Asia. The Commonwealth will offer up to \$9 million in matching financing to support the company's planned manufacturing operation in Auburn. Boston-Power selected the Auburn site based on proximity to its headquarters.

How much money does Boston-power need?

With support from Massachusetts officials, Boston-Power is seeking approximately \$100 million under the U.S. Department of Energy's advanced battery and cell manufacturing grant program established as a part of the American Recovery and Reinvestment Act.

Picture this: A sleek two-story building in Boston's Brighton neighborhood quietly houses enough energy to power 100,000 homes during peak hours. This isn't sci-fi - it's Flatiron Energy's Lite Brite project, a ...

SunContainer Innovations - Summary: Explore how Boston's lithium battery brands are reshaping energy storage markets, from renewable integration to industrial applications. Discover key trends, ...

Massachusetts recently advanced 800 MWh of energy storage projects after a contentious zoning approval process. The Ward Hill project calls for 376 CATL EnerX, 5.28 MWh energy storage ...

To help optimize the facility's energy consumption and contribute to the Massachusetts electric grid, UMass Boston partnered with Enel X for a fully financed, turnkey project that includes a ...
