Will Brazil conduct the first energy storage auction?

Brazil is set to conduct the country's first-ever energy storage auction for adding batteries and storage systems to the national power grid.

Is there a Bess project in Brazil?

Image: A BESS project in Brazil from ISA CTEEP. The Brazilian Minister of Energy and Mining has unveiled an auction for battery energy storage projects to be held in 2025.

Will Brazil's energy auction improve power grid reliability?

Interest in the auction has been expressed by power companies such as Portugal's EDP and Brazil's ISA Energia. The auction will enhance Brazil's power grid reliability by integrating energy storage solutions for electricity generated from renewable sources such as wind and solar. US Tariffs are shifting - will you react or anticipate?

Can foreigners invest in battery storage businesses in Brazil?

Investment, incentives and taxation scenarios According to Brazilian law, there are no legal restrictions on direct foreign investment in the battery storage businesses or in the power sector (except in very specific segments or sectors of the economy).

The inclusion of storage in Brazil's renewable energy tax reductions on renewable energy projects, as well as the legal provision for storage's participation in auction are positive signs for the ...

Brazil launches a 2026 energy storage auction to boost large-scale battery projects and define storage's role in its evolving power market.

This year's events bring together Latin America's leading investors, policymakers, developers, utilities, network operators, EPCs and more all in one place to discuss the landscape of ...

Companies such as Statkraft, CGN, and Elera Renewables have announced plans to develop battery energy storage system (BESS) demonstration projects in Brazil, positioning ...

Brazilian government invests in energy storage projects

The auction will enhance Brazil's power grid reliability by integrating energy storage solutions for electricity generated from renewable sources such as wind and solar.

BSAE believes consolidation will occur in 2026 in Brazil's C& I battery sector as well as in the regulatory sphere. In an interview with pv magazine Brasil, ABSAE's executive director Fabio...

Brazil's battery storage market is still in its infancy, with only a limited number of projects in operation. However, the country boasts one of the cleanest energy grids globally, with 84% of its ...

Explore Brazil's battery energy storage systems, focusing on current regulations, investment opportunities, and the role of these systems in the energy transition.

Brazil's Ministry of Mines and Energy plans to hold its first auction for electricity storage batteries in the second half of this year. According to Thiago Barral, the ministry's national secretary ...

Brazil's federal government will launch its first major battery energy storage system (BESS) tender in April 2026, targeting 2 GW (~8 GWh) of capacity and mobilizing over USD 2 billion ...
