The Chinese competition has complicated European manufacturers' efforts to comply with the ZEV mandate, which set a headline target of 28% battery electric car sales for 2025.

UK new car registrations rose by 6.4% in Q1 2025, according to the Society of Motor Manufacturers and Traders (SMMT), as the industry continues its recovery, but the uptick comes ...

Chinese electric car behemoth BYD reported 11,271 car sales in the U.K. last month, making the country its largest international market.

Chinese electric vehicle giants are mounting an unprecedented assault on European markets, with industry analysts identifying the United Kingdom as their primary strategic beachhead.

Chinese car making giant BYD says the UK has become its biggest market outside China, after its sales there surged by 880% in September compared to a year earlier.

EV sales are on the rise in the UK, thanks in part to surging demand for vehicles from Chinese manufacturers such as BYD. Plug-in hybrids and traditional hybrids have also enjoyed strong...

Shut out by tariffs in the U.S. and EU, China's EV makers are accelerating into the U.K.--now Europe's biggest electric-car market.

The rapid ascent of Chinese electric vehicle (EV) manufacturers in the UK market presents a complex landscape for investors, filled with both challenges and opportunities.

Less than a year after entering the U.K. market, more than 70 dealerships now stock Omoda and Jaecoo vehicles. The Chinese sister brands have achieved monthly sales in the ...

China electric vehicle market united kingdom

As a result, in just a few years, China's EV industry captured half its domestic market, crushing sales of gasoline-powered vehicles. China's growing EV manufacturing industry resulted in ...
