Why should you choose Chint residential solar?

CHINT residential solar solution helps you to embrace a sustainable, cost effective energy life. Our solar systems are designed to power your entire home efficiently, making it a smart investment for long-term savings. Switch to clean energy with CHINT's reliable and innovative PV technology and take a step toward a greener future.

Who is Chint solar?

Chint Solar is a PV module manufacturer founded in 1984 in Zhejiang, China, with international headquarters in Singapore. In 2015, it launched the new EV series of solar panel models: 112; Solar panel wattage range: 290.0 - 585.0; Materials warranty term range: 12.0 - 25.0; The EnergySage classification system incorporates technical

Does Chint still make solar panels?

CHINT is a big company -- as in billions of dollars of revenue each year big. It's also diversified, which means they do more than just make solar panels. Hopefully, this increases their odds of still being around in the future to honor their solar panel warranties. The company was founded in 1984 and has around 30,000 employees.

Where are Chint solar panels made?

Manufactured in China. They also produce solar cells in Thailand. Careful colour matching of cells avoids patchy looking panels. First sold in Australia 9 years ago. Competitive pricing. They have an Australian Office in Adelaide under the name CHINT Solar -- not Astronergy.
