Setting up your La-Z-Boy rechargeable battery pack shouldn't be a headache, and in this video we'll prove it. We'll walk you through the plug-and-play steps, show you how to find the hidden...

La-Z-Boy Power Recline Motion Sofas & Modulares Operating Instructions. Discover how to operate and assemble your new power reclining sofa or modular unit, including important safety information.

We show you have to use a standard power supply and how to connect a battery pack to be used with your recliner.

Keep the power transformer and electrical cords away from heat sources. Never operate the unit with a damaged power transformer, electrical cords, plug or connector.

To activate the memory feature on a LAZBOY POWERRECLINE chair, press and hold the Memory I or Memory II button to store a setting. To automatically move the furniture to a stored setting, press and ...

To recline back and lift the leg rest, hold down the front button closest to the USB port. To get yourself back into the upright position, hold down the back button. Anytime you release pressure ...

Enter the La-Z-Boy Rechargeable Lithium-Ion Battery Pack, a game-changing solution that eliminates the need for a power cord while maintaining all the benefits of power reclining.

Connect the Power Directly - Plug the 120V power cord directly into a wall outlet. Do not use an extension cord, adapter, or surge protector. Your recliner should now operate directly from the wall ...

Enter your three-character product prefix to find and download your manuals. For accurate results, please include any leading zeros.

Connect the power stick and have a lazy style

1. Once the furniture is unpacked, carefully remove the yellow electrical components bag from the body bracket and set aside; depending on the product purchased, inside the bag are the power supply, ...
