Amazon.com: Computer Uninterruptible Power Supply Units - Computer Uninterruptible Power Sup...: Electronics New customer? Start here. Check each product page for other buying options. Need help? Online shopping for Uninterruptible Power Supply (UPS) from a great selection at Electronics Store.

What is an uninterruptable power supply (UPS)?
An uninterruptable power supply (UPS) is a type of backup batterythat will continue to provide electrical power to the electronics that you have plugged into it even if electricity from your home outlets cuts out. Unlike a backup generator,it does not need to power up in order to start generating power.

Why should you use an uninterruptible power supply?
You'll be glad for your uninterruptible power supply UPS the next time your typical power source fails during bad weather or due to an over-extended grid. You'll also be grateful when it saves your electronics from the bad effects of power surges,which can damage all kinds of electronics,including monitors and televisions.

Does uninterruptible power supply USP provide surge protection?
Many models of uninterruptible power supply USP also provide surge protection. A surge protector blocks spikes in voltage so that they do not harm your electronics. So,your battery backup is always at work,protecting your desktop computer,network equipment,or other electronic equipment and charging its battery when not in use.

Use a computer battery backup or an uninterruptible power supply to keep electronics and computer equipment running smoothly during power surges and outages. Choose from a variety of brands, ...
