How much space does a shipping container need?

Width Clearance: A minimum of 10 feet along the delivery path. Important Notes: Space measurements start from where the container will be placed and must extend forward in a straight line. The driver cannot turn within the 110' or 130' delivery space. There are a few different ways to get a shipping container delivered to your property.

Why do schools need storage containers?

When schools need more space for new construction, expansion or other needs, storage containers and modular buildings provide additional storage and workspace for students and staff. Our secure shipping containers are ideal for storing seasonal equipment and maintenance supplies.

Is there a difference between 40ft and 20ft shipping containers?

No. Both 40ft shipping containers and 20ft shipping containers are delivered the same ways. Therefore, typically, there is no difference in the delivery cost for a 40ft or 20 ft container. However, if a customer needs a smaller trailer or tow truck to maneuver sharp turns, it may require additional costs. Q.

What is a shipping container event space?

The shipping container event space is climate controlled and utilizes the original container doors to lead into an equipment storage area. An exterior door gives access to a space for players to review instructional training videos.
