Does Cyprus have 5G?

The Cyta 5G network offers full population coverage across Cyprus. With 100% population coverage, 5G is available in urban, suburban, and rural areas, ensuring high speeds and reliable connectivity wherever you are. This means that our customers can enjoy the benefits of 5G everywhere, whether in cities or remote locations.

What is the European 5G Observatory?

The European 5G Observatory tracks progress in 5G infrastructure deployment across the EU and other regions worldwide according to base stations deployment, edge nodes and infrastructure sharing agreements. Source: IDATE estimates and regulators' data. Reporting period: at December 2024. Source: IDATE estimates and regulators' data.

Does Cyta charge for 5G network access?

There is no additional charge for Cyta's 5G network. What is required is a 5G certified device and an area with 5G network coverage. What do you need to do for Cyta 5G network access?

What radio frequency is used in Cyprus?

In Cyprus, the radio waves spectrum that has been licensed by the state (700MHz and 3.6 GHz) are very close to those frequencies that have been used for years by the existing mobile phone technologies and digital television. It is worth noting that home Wi-Fi frequencies operate at 2.4GHz and 5GHz.

Discover everything about 5G in Cyprus--coverage, speeds, SIM options, and tips for travelers and remote workers using 5G data across the island.

Figure 18: Cost Benefit Ratio of 5G for various use cases for Cyprus (source: Enomix analysis based on "5G action plan review for Europe: final report" 2020, Analysys)

Cyta has announced the completion of the pan-Cypriot 5G mobile network that offers state-of-the-art telecommunications services throughout the country, even in its most remote areas.

Mobile networks and carriers in Cyprus use 2 GSM bands, 1 UMTS band, and 1 LTE band. Find out if your unlocked phone or mobile device will work in Cyprus. See the tables below for details. Will your ...

Distribution points of 5g base stations in Cyprus

The telecoms regulatory body Cyta bragged that Cyprus was the first EU country to announce complete 5G population coverage, including in isolated mountainous locations.

As of 2025, 5G coverage in Cyprus is still focused primarily on the island's major urban centers. Cities like Nicosia, Limassol, Larnaca, and Paphos enjoy the most reliable signals, while ...

What areas does 5G network cover? The Cyta 5G network offers full population coverage across Cyprus. With 100% population coverage, 5G is available in urban, suburban, and rural areas, ...

Operators submit to DEC field EMF measurements for all existing stations that are carried out by accredited laboratories (ISO/IEC 17025)
