This product is used by auto tint installers to go over the dotmatrix areas on windshields, especially the back windshield dot matrix area where sometimes auto tint has a hard time to adhere.

The dot-matrix is a raised surface on the glass and the dots are too close together to allow the film to adhere properly to the glass. This can create an undesirable look, somewhat a ...

SUNOUT is technically known as "DOT MATRIX UV-X". It was originally developed for the Automotive Industry to be used as an alternative to the glue-on types of automotive window film.
