What is the cost of electricity in Somalia?

The cost of electricity in Somalia is high. According to Al Jazeera, a kilowatt of electricity in Mogadishu can cost up to \$1 per hour, which is five times more expensive than in Kenya, and 10 times more expensive than in the U.S.

Why is electricity a luxury in Somalia?

Electricity is a luxury in Somalia because most of the country's working population is jobless. According to the U.N., more than half of the country's population (those between the ages of 15 and 64) is unemployed, with a youth unemployment rate of 67 percent. Additionally, 40 percent of Somalia's population lives below the poverty line.

What is an example of a solar farm in Mogadishu?

For example, Benadir Energy Company (BECO)--Somalia's largest electric utility and the only provider in Mogadishu--developed a 10MW solar farm outside Mogadishu and connected to its power generation and transmission.

What factors affect the price of electricity in a country?

However, because a country's ability to generate electricity is heavily influenced by factors that include the country's geographical location, geological makeup, level of development and technological advancement, and whether it is high-, middle-, or low-income, the price of electricity can vary widely from one country to the next.
