Designed to operate in extreme environments ranging from -40°C to $+60^{\circ}\text{C}$, our lithium-ion and solid-state batteries are ideal for emergency medical equipment, portable care systems, and field diagnostics.

What are healthcare battery solutions? In the area of Healthcare battery solutions, technology plays a dominant role in finding solutions to everyday problems, but silently, a crucial component is making ...

We produce battery solutions based on a range of chemistries from Li-ion to NiMH and conventional lead-acid options. Our engineers engage from the inception of the project to select the chemistry with ...

While not all cell manufacturers will support Class III Medical Device applications, Epec Engineered Technologies has experience in designing and manufacturing battery packs that can satisfy the ...

Our battery packs are produced in both Germany and China. We have production facilities in both countries to ensure efficient and high-quality manufacturing. In Germany, we rely on advanced ...

Saphiion develops customized, hassle-free, and cost-effective lithium-ion battery packs for our valued customers with unparalleled customer service, and we strive to create thoughtful battery solutions ...

Our medical battery packs ensure uninterrupted operation, stable energy output, and long cycle life, helping hospitals, clinics, and medical device integrators maintain continuous power in both routine ...

Experienced end-to-end design and manufacturing services for medical equipment battery packs. World-class manufacturing facilities in Europe with stringent quality processes.

Smart Power For Medical Equipment
Critical Medical Equipment Requirements
Delivering A Range of Battery Chemistries
Selecting and Qualifying Top-Performing Cells
Integrating Smart Battery Technology
Customizing Full Lifecycle Design to Volume Manufacturing
Securing High-Quality, Safe and Reliable Battery Packs
Why
