Does fogstar drift have a warranty?

When you receive your Fogstar Drift, don't forget to register for your 10 Year Warranty. This ensures your battery is on our database should any issues arise over the coming years. Fogstar offers a 10 year warranty on all Fogstar Drift Leisure batteries. Warranties only apply to the original owner and are non-transferrable.

Do fogstar drift batteries come with heating?

All Fogstar Drift batteries come with heating allowing you to charge your LiFePO4 battery in temperatures of -20°C. Fogstar Drift batteries contain Grade A EVE, matched and balanced cells, capable of >6000 cycles at 80% depth of discharge. We've featured a removable 2A JK Active Balancer in our Drift Pro range.

What is the difference between fogstar drift and DRIFT Pro?

The Fogstar Drift adds premium features like Grade A EVE Cells, Bluetooth, and heating. For maximum performance, the Drift PRO delivers a 300A JBD BMS, Victron integration, active balancing, and a 10-year warranty. Wherever your adventure takes you, there's a Drift battery engineered to power it.

What is fogstar drift?

Designed by our award-winning UK team, the Fogstar Drift range offers off-grid power solutions for every need and budget. Whether you're powering a weekend escape or a full-time setup, our range has you covered. The Drift ECO covers essential power needs with capacities up to 628Ah, starting from just £219.99.
