Does Serbia comply with EU standards on information and Communication Technology?

The annual surveys on information and communication technology (ICT) fully meet EU standards and are carried out regularly, covering households/individuals and businesses. Serbia is fully compliant for most of the short-term business statistics indicators. Serbia partially complies with the EU acquis on social statistics.

Should Serbia take more responsibility for EU accession?

The Serbian authorities still need, as a matter of priority, to take much more responsibility for proactive and objective communication on Serbia's EU accession process and the EU, which is by far Serbia's main political and economic partner, and for countering disinformation in its national media.

When will GRECO report on Serbia's 4th evaluation round be released?

Prevention measures As regards GRECO recommendations, in follow-up to the November 2020 compliance report on Serbia's Fourth Evaluation Round concerning members of parliament, judges and prosecutors, GRECO requested Serbia to report on progress by 31 October 2021. Serbia submitted this report in a timely manner.

How can Serbia speed up EU accession negotiations?

Strong political will, effective policy planning and coordination, along with sufficient human and financial resources for EU accession across all institutions involved are needed, so that Serbia can speed up the work towards meeting its objectives for EU accession negotiations.

The objective of the project is to contribute to the efficient, inclusive and sustainable implementation of the Green Agenda in Serbia by improving policy and base-conditions for the more efficient ...
