They are manufactured using high-quality galvanized steel sheets, insulation wool, high-temperature resistant EPS or PU materials, featuring a double-layer thickened outer shell for a longer service life.

Designed with sealed construction and efficient heat exchange technology, these cabinets adapt to demanding climatic conditions including high temperatures, extreme cold, desert environments, and ...

Outdoor Cabinet incorporates tailored air conditioners that will keep even the most sensitive electronics functioning in extreme environments. Material: SPCC, stainless steel, galvanized steel or as ...

Wind and photovoltaic integrated outdoor cabinet HJGF-XFD-01 The wind and photovoltaic integrated outdoor cabinet is an outdoor integrated cabinet made of high-quality metal sheet materials.

The IP55-rated outdoor cabinet is a robust, weather-resistant enclosure designed to protect sensitive electrical, networking, or industrial equipment in harsh environments.

IP55 Outdoor Series Cabinets are cabinets that are resistant to all kinds of adverse conditions such as heat, water, dust and wind, ensuring that the electronic devices and other materials they contain ...

Heavy batteries demand a solar battery box with extra strength and durability. In order to protect outdoor batteries from weather and damage, AZE manufactures custom NEMA 3R enclosures.

Designed for outdoor deployment, the cabinet features weather-resistant construction, efficient ventilation or air conditioning, and options for battery and DC distribution integration. With robust ...

Engineered with reinforced steel enclosure and IP55/IP65 protection class for dust, water, and corrosion resistance in severe climates. Combines high-voltage lithium battery packs, BMS, fire protection, ...
