We can provide users with full-scenario lithium battery systems, and provide customized lithium battery solutions to high-end users. Click the link below to download technical documents

Robust Protection: IP54 or higher enclosure rating, resistant to dust, moisture, and extreme temperatures.
Excellent Weather Resistance: Easy to use in all weather conditions.

The outdoor photovoltaic energy cabinet can provide reliable housing for network servers, edge computers, professional equipment, monitoring systems, photovoltaic, and battery systems.

Combines high-voltage lithium battery packs, BMS, fire protection, power distribution, and cooling into a single, modular outdoor cabinet. Uses LiFePO4 batteries with high thermal stability, extensive cycle ...

The EK photovoltaic micro-station energy storage cabinet has redefined the power supply mode of distributed energy scenarios with its core advantages of "intelligent integration, multi-energy ...

Equipped with a robust 15kW hybrid inverter and 35kWh rack-mounted lithium-ion batteries, the system is seamlessly housed in an IP55-rated cabinet for enhanced protection against water and dust, ...

Integrated PV Energy Storage Cabinet solutions--modular, easy to deploy, certified to international standards, supporting on/off-grid and peak-shaving applications with global delivery and support.

Engineered for high-capacity commercial and industrial applications, this all-in-one outdoor solution integrates lithium iron phosphate batteries, modular PCS, intelligent EMS/BMS, and ...

This energy storage cabinet is a PV energy storage solution that combines high-voltage energy storage battery

High Temperature Resistant Type Photovoltaic Energy Storage Cabinet for Ports

packs, a high-voltage control box, an energy storage PV inverter, BMS, cooling systems (an ...

Highjoule's Outdoor Photovoltaic Energy Cabinet and Base Station Energy Storage systems deliver reliable, weather-resistant solar power for telecom, remote sites, and microgrids.
