What is a solar panel warranty?

Solar panel warranties are more than just a piece of paper; they are a crucial safety net for anyone considering investing in solar energy. They offer a guarantee that you get the most out of your solar panels.

How often do solar panels degrade?

Most solar panel manufacturers will guarantee at least 80% of the original output by the end of the warranty term, or about 0.7% degradation each year. You'll notice that most warranties expect the highest degradation (2-3%) within the first year. That's because panels degrade at the highest rate when first exposed to solar radiation.

Are solar panel warranties a good investment?

Understanding and comparing solar panel warranties are crucial steps in your solar investment journey. They not only provide a safety net for your investment but also serve as an indicator of the quality and reliability of the product.

Which solar panel warranty is best?

Most solar panel warranties won't reimburse for labor costs associated with installing new equipment or shipping fees for replacement parts. Based on our ranking system, Maxeon has the strongest overall warranty, with Demand Construction and CertainTeed Solar close behind. Why are solar panel warranties important?
