Where do I install a line-up and match Battery Cabinet?

Line-up-and-match battery cabinets are installed adjacent to the UPS. The recommended installation location is on the right side of the UPS cabinet. See Figure 2 and Figure 3 for line-up-and-match configuration views. Contains two or three battery strings to be used with the 93E 30 kVA UPS.

How to install a battery?

Battery installation can be efficient and safe by following the proper steps. Here is what you need to prepare before installing the battery. Check the voltage and capacity, select the appropriate battery type, and check the manufacturer's instructions, as each type of battery has different installation guidelines.

How is a ups connected to a battery cabinet?

In standalone configurations power wiring is routed using external conduit. Connections are made to easily accessible terminals at the back of the cabinet. Line-up-and-match battery cabinets are installed adjacent to the UPS.

How do I prepare for a battery installation?

Preparation Before Battery Installation Understanding the specifications and types of batteries. Select the appropriate battery type, and make sure the selected battery specifications match the device being used. Prepare the materials and tools required in the battery installation guide as explained above.

Follow this detailed guide for a smooth installation of your solar battery cabinet and maximize renewable energy use
