-----

Connection through WLAN Plug the module into the USB port at the bottom of the inverter. Turn on the WLAN/Bluetooth function on your smartphone. Stay within 5m range from the inverter to maintain ...

Huawei dedicates to "Customer-centric", combines digital information technology and power electronics technology, has released "Smart, Efficient, Safe, Reliable" string inverter, helps customers achieve ...

HUAWEI Smart Dongle-4G is an advanced communication device designed to enable solar inverter connection to become more advanced. With the support of stable and fast 4G wireless connection, ...

Product Overview The Residential Smart PV Solution consists of various components including inverters, energy storage systems (ESS), backup boxes, smart power sensors, smart dongles, and ...

This document describes how to connect inverters to the FusionSolar Smart PV Management System through the Smart Dongle (SDongleA or SDongleB, also referred to as Dongle). For details about the ...

HUAWEI FusionSolar advocates green power generation and reduces carbon emissions. It provides smart PV solutions for residential, commercial, industrial, utility scale, energy storage systems, and ...

The inverter connects to a phone through a Smart USB-WLAN Adapter (shortened to WLAN module in this document),Bluetooth module,or a data cable. You can use the SUN2000 app to view the running ...

Huawei Smart Dongle-4G supports the communication between the inverters and your solar management system via 5G connection and hassle-free plug and play. WLAN access point ...

The Huawei solar inverter has emerged as a dominant force in the global solar market, representing one of the most sophisticated and reliable inverter solutions available in 2025.

Boost your solar management with the HUAWEI Smart Dongle 4G for seamless, reliable, and efficient

# Huawei PV Inverter Bluetooth

inverter connectivity. The HUAWEI Smart Dongle 4G offers a simple and robust solution to enhance ...
