The Hubble Lithium S-100A is a high-performance lithium iron phosphate (LiFePO₄) battery designed to replace traditional lead-acid batteries. With its advanced features and impressive specifications, the ...

The Hubble S-100A 1.28kWh 12V 100Ah Lithium Battery is an excellent alternative to traditional Lead Acid batteries with a short cycle life. The Hubble S-100A is the perfect choice for your load-shedding ...

Experience reliable and efficient energy storage with the Hubble S-100A lithium battery. Say goodbye to energy shortages and hello to consistent power supply for a sustainable future.

Hubble S-100A 1.2kWh 12V 100Ah Lithium Ion Low self-discharge High cycle and service life 1C High performance lithium battery Internal Battery Management System Excellent high temperature ...

The Hubble S-100A Lithium Battery offers long-lasting performance, exceptional safety features, and flexible configurations for worry-free power at home or your business.

Compatible with most UPS & Inverters using AGM/VRLA charge setting Low self discharge Easy drop in replacement for old lead acid battery installs Perfect replacement Lithium solution for upgrading your ...

You can run a maximum of 4 x S-100 units in series (48VDC) and 4 strings in parallel for a total of 16 batteries in one battery bank. Ensure that current for charge and discharge is limited to 100A for the ...

The Hubble S-100A 12V 100Ah Lithium Battery is a premium LiFePO₄ power storage solution, designed as a reliable replacement for traditional lead-acid batteries.

Discover the Hubble S-100A 1.2kWh 12V lithium battery with 1C rating ideal for lead-acid replacement with supported inverters.

Experience reliable and efficient energy storage with the Hubble S ...
