China's largest environmental desert control photovoltaic (PV) project in the Kubuqi desert, North China's Inner Mongolia, has connected to the grid. The 100,000-mu (6,666 hectares) project is providing ...

In Chaideng village in Ordos city, Inner Mongolia autonomous region, 3.46 million blue solar panels stretch across the desert, covering 30 square kilometers, transforming the endless ...

An aerial drone photo taken on June 5, 2025 shows an integrated sand control and photovoltaic project at a state forestry area on the edge of Ulan Buh Desert in Linhe District of ...

Across an almost 4-month study period, DesertBlue modules demonstrated a 4.98% power generation increase compared to conventional modules during an empirical test in the Ulan ...

Workers install photovoltaic panels at a photovoltaic project in Kubuqi Desert, north China's Inner Mongolia Autonomous Region, June 6, 2025.

Once defined by arid wastelands and ecological degradation, the Kubuqi and Ulan Buh deserts in Inner Mongolia are now home to vast expanses of solar panels -- a transformation that's ...

An aerial drone photo taken on Sept. 2, 2025 shows workers installing photovoltaic panels at a new energy base in Kubuqi Desert, north China's Inner Mongolia Autonomous Region.

In recent years, Inner Mongolia has carried out integrated projects for sand prevention and control as well as wind and photovoltaic power to advance the improvement efforts in Kubuqi Desert.

Workers from CHN Energy Inner Mongolia Company dedicated their time and effort to transform the desolate landscape into a remarkable "blue ocean" of photovoltaic panels. After more ...
