Inner Mongolia Energy Group has turned on a 1.6 GW solar project in Bayannur, Inner Mongolia, using inverters from China's Sineng Electric.

To date, photovoltaic bases have been established in the northern part of Kubuqi Desert, which also serve as solid booster for local ecological rehabilitation and economic growth.

Workers from CHN Energy Inner Mongolia Company dedicated their time and effort to transform the desolate landscape into a remarkable "blue ocean" of photovoltaic panels. After more ...

China's largest environmental desert control photovoltaic (PV) project in the Kubuqi desert, North China's Inner Mongolia, has connected to the grid. The 100,000-mu (6,666 hectares) project is providing ...

An aerial drone photo taken on Sept. 2, 2025 shows workers installing photovoltaic panels at a new energy base in Kubuqi Desert, north China's Inner Mongolia Autonomous Region.

Once defined by arid wastelands and ecological degradation, the Kubuqi and Ulan Buh deserts in Inner Mongolia are now home to vast expanses of solar panels -- a transformation that's ...

Workers install photovoltaic panels at a photovoltaic project in Kubuqi Desert, north China's Inner Mongolia Autonomous Region, June 6, 2025.

In Chaideng village in Ordos city, Inner Mongolia autonomous region, 3.46 million blue solar panels stretch across the desert, covering 30 square kilometers, transforming the endless ...

Seeds of desert plants are pictured at an integrated sand control and photovoltaic project at a state forestry area on the edge of Ulan Buh Desert in Linhe District of Bayannur, north China's ...

Inner Mongolia photovoltaic panel installation started

Recently, the Government of Inner Mongolia issued a "Special Action Plan for the Development of New Energy Storage in Inner Mongolia Autonomous Region 2024-2025", which ...
