Stanford researchers in the WE3 and S3 Labs developed a cloud-based computation and predictive control platform for wastewater treatment facilities energy storage and energy generation.

It can distribute electrical energy reasonably, making it convenient to operate circuit switching. With a relatively high safety protection level, it can visually display the operating status of the circuit.

AZE's All-in-One Energy Storage Cabinet & BESS Cabinets offer modular, scalable, and safe energy storage solutions. Featuring lithium-ion batteries, smart BMS, and thermal management, they're ideal ...

The new wastewater treatment plant is an environmental innovation showcase project, which automatically balances energy consumption and production so that an external power supply ...

Our intelligent containerised waste water treatment plants offer a fast and effective above ground portable waste water treatment system solution for any sites, without the need for any existing ...

SLENERGY provides advanced energy storage cabinets with intelligent control, high safety, and long-term performance for commercial and industrial power applications.

With 16 years of R& D experience in industrial and commercial energy storage, we proudly present our 4th-generation energy storage cabinet. Designed to meet customized needs, it excels in peak ...

Huijue Group offers industrial and commercial energy storage, PV-BESS -EV Charging, Off-grid / On-grid Microgrid, telecom site solutions, and home solar energy storage, ensuring ...

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions offer remote ...

Intelligent supplier of energy storage cabinet for wastewater treatment plants

Wenergy provides fully integrated, outdoor-rated ESS cabinets using LiFePO₄ technology with modular design and robust safety architecture. Our solutions are engineered for long-term operation, scalable ...
