-----

The 201 safeguard was so weakened as to be largely irrelevant through the bifacial exclusion. Lifting the exemption reinstates a 15% tariff, providing important, but sadly still insufficient, relief from anti ...

In his announcement, the President included an exemption for bifacial solar panels. This decision comes after the ITC recommended in November 2021 to extend the safeguard tariffs for an additional four ...

Since no longer exempt, bifacial solar cells would be subject to Sec 201.

The Biden Administration today put imported bifacial solar panels back under Sec. 201 tariffs, after the specialty solar panels enjoyed a two-year exemption from extra duties first initiated by ...

The purpose of this message is to provide guidance to modify the Section 201 action by revoking the exclusion of bifacial panels and applying the safeguard tariff to bifacial panels.

Recent U.S. policy changes have removed preferential treatment for bifacial solar panels via tariff exemptions, but regional adoption is influenced by their technical advantages and market ...

Importers who signed contracts by May 16, 2024, may import bifacial solar panels without Section 201 duties from June 26, 2024, to September 23, 2024, provided the contract terms have not ...

Discover the strategic case for manufacturing bifacial solar modules in Latvia to serve the Scandinavian market. Learn how logistics and technology create a unique EU opportunity.

excluded bifacial solar panels that absorb light generate electricity on each side of the panel and that consist of only bifacial solar cells that absorb light and generate electricity on both sides of the cells ...

There is no domestic production of this kind of solar panel, which has the ability to absorb light on both sides. However, since these were the only imported panels that weren't subject ...
