Equipped with MSD fuses and intelligent Battery Management Units (BMUs), it delivers a safe and stable energy storage solution for even the most demanding environments.

Maximize power reliability & savings with our 125KW/261KWH Liquid-Cooled Battery Cabinet. Featuring superior cooling efficiency for extended 10-year lifespan, it enables critical equipment UPS protection ...

Our liquid-cooling energy storage cabinet is engineered for high-efficiency, scalable ESS solutions. It combines top-tier LiFePO4 cells, advanced liquid cooling, and AI-powered safety features to ensure ...

Liquid Cooling Battery Cabinet ensures safe, sustainable cooling for modern energy systems.

In the rapidly evolving landscape of energy storage, the efficiency and longevity of battery systems are paramount. A critical component ensuring optimal performance, especially in high ...

As a leading energy storage cabinet manufacturer and supplier, GSL ENERGY offers fully integrated, factory-tested systems featuring lithium iron phosphate (LiFePO4) batteries, advanced BMS, and a ...

HyperCube is a liquid-cooling outdoor cabinet suitable for energy storage. It features high safety, a long lifespan, high efficiency, stability, scalability, and rapid response.

The 261kWh liquid-cooled BESS is an advanced outdoor energy storage cabinet designed for commercial and industrial applications. Featuring a high-efficiency liquid cooling system, it ensures ...

Based on market demand, we have developed two different liquid cooling solutions specially designed for Li-ion Battery Energy Storage Outdoor Cabinets: Both solutions safely operate in cold and hot ...

The MEGATRONS 373kWh Battery Energy Storage Solution is an ideal solution for medium to large scale

Liquid-cooled energy storage battery station cabinet

energy storage projects. Utilizing Tier 1 LFP battery cells, each battery cabinet is designed for ...
