What is an outdoor telecom enclosure?

The outdoor telecom enclosures, which are also referred to as telecommunications cabinets, are fully enclosed cabinets that help protect electrical cabling and other equipment from potentially damaging environments. Such damage can be caused by dust, rain, ice, and external heat. What do you need to know about outdoor telecom enclosures?

What is a telecommunications enclosure?

Telecommunications enclosures are used in protecting electrical equipment in charge of transporting voice, video and other data for a number of industries. Telecommunications companies rely on custom and standard NEMA-rated electrical boxes to protect their sensitive equipment.

Why do telecommunications companies need a custom enclosure?

Telecommunications companies rely on custom and standard NEMA-rated electrical boxes to protect their sensitive equipment. Custom enclosures are often needed because installers constantly struggle to adapt off-the-shelf products to unusual requirements. Why Choose Bison ProFab?
