What are Chargex® lithium iron phosphate batteries made of?

CHARGEX® Lithium Iron Phosphate Batteries are made with our 32700 - 3.2V 6AH Stainless Steel LiFePO4 cells that are bolted together through our Lengthway Circuit Boards. The Lengthway Circuit Boards provide rigid strength to cells core and are connected to the heart of the system's BMS that will balance individual cells.

How are Chargex® lithium iron phosphate batteries bolted together?

CHARGEX® Lithium Iron Phosphate Batteries are bolted together using our 3.2V 6AH Stainless Steel Cylindrical Cells which adds rigid strength and superior current conductivity compared to the lesser quality tab welded method.

What is a lithium iron phosphate battery?

Our Lithium Iron Phosphate Batteries are built with a First Class - Fully Automatic Built in Battery Protection System (BPS) . This Highly Advanced Internal Battery Protection System will automatically turn off the battery if it is drained below 8V preventing accidental over discharge or if it is charged above 16V.

Advancements in battery technology continue to improve the energy density and efficiency of PHEV batteries, resulting in increased electric driving range and overall performance.

With 30 people R& D team who has rich experience, CTS focuses on high voltage battery customization for middle and high end markets by selecting first grade lithium cells with high energy density.

Get the bestselling 336v battery pack on Alibaba at unrivaled discounts and enjoy high-performance output. The 336v battery pack are durable to ensure value for your money.

Get the best deals for 36V Lithium Battery Pack at eBay . We have a great online selection at the lowest prices with Fast & Free shipping on many items!

36V Lithium Golf Cart Battery with 25A Lifepo4 Charger, 36V Lithium Battery with 200A BMS, Peak Current 1000A (3-5s), Max 7.68kW Power Output, Perfect for Golf Carts

Lithium battery pack 336v

OEM 336V high voltage ev lithium ion battery pack for electric car traction LFP battery The battery used in a PHEV Plug-in Hybrid Electric Vehicle) is specifically designed to provide a balance between ...

Chargex manufactures high-performance lithium ion batteries for solar energy, RVs, marine vessels, electric vehicles, and industrial applications. Long-lasting, lightweight, and reliable power solutions.

These rechargeable lithium power battery packs combine robust 336V output and 280ah capacity, tailored to meet the energy demands of electric vehicles while leveraging solar integration.

o Compact design, ultra-thin volume. o High capacity scalability, from 5kWh to 30kWh. o Voltage range options from 96V to 336V. o Features A-grade lithium iron phosphate cells. o IP20 rated enclosure for ...
