The application level of LONGI Solar module is Class II, which can be used in systems operating at ≤ 50 V DC or ≤ 240 W, where general contact access is anticipated;

This document provides installation instructions for LONGi Solar PV modules. It discusses module identification, electrical and mechanical installation requirements, safety precautions, site selection, ...

HPBC (Hybrid Passivated Back Contact) is LONGi self-developed and named hybrid passivated back contact cell technology. It is a new generation of high-efficiency cell technology featuring no grid lines ...

LONGi provides you with the most comprehensive product data information so that you can quickly understand LONGi's full range of products.

Access the comprehensive installation manual for Longi PV panels, detailing safety measures, regulations, and installation procedures. Ensure proper handling of DG modules for efficient and safe ...

This manual elaborates on installation and safety use information for Solar power generating modules (hereinafter referred to as module) of LONGi Green Energy Technology Co., Ltd.. (hereinafter ...

Explore the new Hi-MO X6 Artist Ultra Black solar panel by LONGi, featuring a 360-degree pure black appearance, high-efficiency HPBC technology, and bifacial design. ...

Diagrams illustrate different junction box locations and recommended wiring methods for vertical and horizontal installations, including cable length specifications for 60 and 72-type modules.

Electrical and mechanical installation information will be introduced in this installation manual, so please read and understand the information before installing LONGi modules. In addition, this manual also ...
