Selecting the right heavy-duty traction battery depends on specific operational needs, including the type of equipment used and environmental conditions.

We make high-voltage LiFePO₄ battery packs - specifically 280V, 300V, and 400V - perfect for tough jobs in mining, construction, and farming. These aren't your average batteries. They're built to give ...

Electrifying mining equipment with our advanced lithium battery systems offers substantial benefits to both the environment and fleet operators. Our lithium batteries significantly reduce emissions, ...

American Battery Solutions Inc. offers heavy-duty lithium-ion batteries for the construction, agricultural & mining industries. These low-cost, durable lithium-ion solutions reduce wear and tear on vehicles and ...

The PS13XX02-288V96Ah (96AH1P90S) TC Pack is a durable lithium-ion battery designed for EV mining trucks and construction machinery. With 288V voltage and 96Ah capacity, it ensures reliable ...

To meet industry needs, Sandvik designs its battery-electric loaders and trucks specifically to respond to the demands of the harsh underground mining environment. One key success factor for the ...

BSLBATT provides custom lithium battery retrofit solutions for underground mining trains, available in configurations such as 320V/230Ah and 192V/100Ah. These battery packs are designed for plug-and ...

Our robust mining-truck lithium battery pack is designed for demanding underground applications.

BSL Battery - Industrial makes very good lithium batteries that power everything from Mining Trucks/Mining Locomotives to GSEs, forklifts, AGVs, and aerial work vehicles. Our rugged mining ...

Key challenges for batteries in the construction & mining industries Thanks to our battery solutions based on immersion cooling technology, we have helped our customers in construction and mining ...
