Where can I find information about the US Navy?

At the National Archives, researchers can find information on the United States Navy ranging from the wooden hulled ships of the Continental Navy used in the Revolutionary War, to the deployment of massive Carrier Battle Groups and Navy Task Forces.

Where is the US Navy located?

The vast majority of its workforce is located in San Diego, California, with detachments located in Hawaii, Guam, and Japan. On June 1, 1940, Secretary of the Navy Frank Knox established the Navy's first laboratory on the West Coast, the U.S. Navy Radio and Sound Laboratory.

What does MAP stand for in the Navy?

This NAVADMIN announces the policy and guidance for Calendar Year 2021 Season Two Meritorious Advancement Program (MAP) for Active and Full-Time Support Sailors, which runs from 1 September through 15 October 2021. MAP is a Navy program.

How do I find a Navy ship?

You can manually find the ship if you know the approximate location directly exploring our World Navy Live Map³. You can search in our list of navy ships by type and class if you know the hull number (designation) of the vessel or its strategic purpose.

Use Base Guides to find United States Navy military bases. Select military bases by name or location.
