What is Longi high-efficiency solar module?

LONGi High-efficiency solar Module, widely adopting PERC solar cells technology, Half-cut Module Technology and Bifacial PV technology, Mono Silicon Crystalline Technology has become a leading manufacturer and brand in the export and installation of monocrystalline silicon solar photovoltaic module.

How efficient is LONGi Solar?

LONGi has once again announced a new efficiency record for its proprietary dual terminal perovskite-silicon tandem solar cell - 34.85%, certified by the US National Renewable Energy Laboratory (NREL). LONGi's research team is on a roll. In November 2023, they increased cell efficiency to 33.9%. Then, in June 2024, they pushed it up to 34.6%.

Can Longi be used as a solar power plant?

LONGi plans to integrate solar power plants with pumped storage in areas that feature significant elevation differences and abundant sunlight, creating an industrial model for using solar. On its website, LONGi states that "the LONGi R&D team has achieved successive breakthroughs in key technologies.

How much power does a LONGi Solar module produce?

The company said the 2,382 mm x 1,134 mm module offers 25.9% efficiency and 700 W power output, with a power density of 259 W/m². The temperature coefficient is -0.24%/C. Longi said the cells are manufactured using both low- and high-temperature passivation on the front side.

Chinese solar technology giant Longi Green Energy Technology Co Ltd announced two new world records for solar cell efficiency recently, further cementing China's leading position in the ...

Researchers from LONGi Green Energy Technology, the Hong Kong Polytechnic University (PolyU), Soochow University, Beijing University of Technology, Chinese Academy of ...

Latest Price Trends and Models of LONGi Photovoltaic Panels in 2025 As of February 25, 2025, LONGi Green Energy has implemented a price adjustment for distributed generation ...

Back Contact (BC) Solar Technology Development White Paper At the key node of intergenerational transition of global Photovoltaic (PV) technology, the back contact (BC) cell ...

New Energy Photovoltaic Panels LONGi

Chinese solar manufacturer Longi unveiled a new PV module with 25.9% efficiency at the 2025 SNEC trade show this week in Shanghai, produced using both low- and high-temperature ...

LONGi Green Energy Technology Co., Ltd. is a global leader in solar photovoltaic (PV) solutions, particularly known for its high-efficiency solar panels. With a focus on monocrystalline ...

Bifacial PV Bifacial modules collect solar energy from both the front and back side of the module, increasing the total power output per module. LONGi had scaled up high-volume ...

Longi, the China headquartered solar PV solutions giant, has launched its latest Hi-MO X10 solar module series at an event held in Shanghai. The new modules use Longi's 2nd generation ...

LONGi leads the solar energy revolution with PV technology, delivering high-efficiency modules, solutions, and full-cycle quality assurance.

Jiangsu Longi Technology Co., Ltd is a leading company specializing in International tracking of photovoltaic panels and components, committed to providing efficient, reliable, and sustainable solar ...
