An AIFFP loan and grant package has supported Solar Pacific Pristine Power to build Palau's first solar and battery energy storage facility, key to its transition to renewable energy.

The USD 29 million project, jointly owned by SPEC and its listed parent Alternergy, will meet more than 20% of Palau's energy needs. SPEC was awarded a long-term power supply ...

Palau's ambitious renewable energy transition relies heavily on innovative energy storage solutions. This article explores how advanced battery storage systems are transforming the Pacific island nation's ...

As island nations grapple with climate change, Palau has emerged as a pioneer in adopting wind and solar energy storage solutions. The recent launch of its hybrid power station bidding program marks ...

Alternergy Holdings Corp. (Alternergy) and its subsidiary Solar Pacific Energy Corporation inaugurated Republic of Palau's first solar PV + battery energy storage system (BESS) project and the largest to ...

The largest solar and battery storage project in the Western Pacific has been installed in Palau, a 15.3 MW solar system combined with a 13.2 MWh battery. The US\$29 million installation ...

With 100 MW of power generation and distribution capacity, the Armonia microgrid will enable Palau to meet its 45%-by-2025 renewable energy goal five years ahead of schedule, as well as offer ...

As the sun sets on Palau's diesel era, one thing's clear: the future of new energy storage in Palau isn't just keeping lights on - it's redefining how island nations can punch above their weight class in the ...

AIFFP is investing in Palau's grid upgrades and battery storage to enable more solar power, reduce diesel reliance and support Pacific climate leadership.
