How much does electricity cost in Timor-Leste?

The cost of electricity in Timor-Leste for commercial and industrial consumers is high compared to ASEAN countries. For instance, in Indonesia industrial electricity tariffs are 0.11 USD/kWh, compared to 0.24 USD/kWh in Timor-Leste.

Does improved electricity access improve development outcomes in Timor-Leste?

Overall, Timor-Leste's HDI has shown little improvement since 2010, while electricity access doubled to 100%. The effects of improved electricity access on development outcomes appear less than observed internationally. Fig. 3. Timor-Leste's HDI component indices 2000-2021.

What is the energy landscape in Timor-Leste?

Timor-Leste's energy landscape is characterized by a growing demand for electricity and a heavy reliance on imported fossil fuels. In 2022, almost all of the electricity being generated came from oil or other fossil sources. While 100% of the population have access to electricity, only 18% have access to clean cooking.

Is Timor-Leste a good country for solar energy?

Timor-Leste has a high-quality solar resource. The global horizontal irradiance in Dili is higher than on the east coast of Australia, where the solar market is mature and installation costs are higher. The cost of electricity in Timor-Leste for commercial and industrial consumers is high compared to ASEAN countries.

The project was launched by the Prime Minister, Kay Rala Xanana Gusmão, on January 9, 2025, and will contribute to the stability of the electricity supply and guarantee quality energy for homes, public ...
