During 2025, Locus Energy has taken significant steps in its Nordic expansion. Earlier this year, a groundbreaking ceremony was held for a 70 MW/140 MWh battery energy storage ...

Developer and optimiser Ingrid Capacity and storage owner-operator BW ESS have been working together to deliver 14 large BESS projects across the Swedish grid in tariff zones SE3 and SE4.

Ingrid Capacity, renowned for optimizing grid-scale battery storage and flexible assets across Europe, entered a strategic partnership with SEB Nordic Energy in September 2024, ...

While Norway once aimed to be the "battery of Europe" it has since been overtaken other Nordic countries Sweden and Finland for BESS deployments. Research firm LCP Delta's Jon Ferris ...

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid systems.

HiTHIUM, a global leader in long-duration energy storage technology, has signed a multi-year supply agreement (MSA) with Bertel O. Steen Power Solutions (BOS Power) to deliver 3GWh of ...

"Think of supercapacitors as the sprinters of energy storage," says Dr. Lena Fjellström, project lead at Nordic Energy Research. "They're not here to replace marathon-runner batteries, but ...

OX2 has sold its 50MW/110MWh battery energy storage project in Uusnivala, Finland, to the L& G NTR Clean Power Fund. The project will help regulate grid frequency and stability and participate in ...

Computer-generated picture of the future battery storage park in Finland. SEB Nordic Energy's portfolio company, Locus Energy, in collaboration with Ingrid Capacity, will build the largest ...

Nordic lithium battery energy storage project

A report from BloombergNEF indicates global energy storage deployment is expected to exceed 300 gigawatts by 2030, reflecting a tenfold increase from 2020 levels. Finland's project aligns ...
