We've already built a growing business installing commercial and domestic solar in the region, working with PPUC and the National Development Bank of Palau to help Palau reach its Net Zero climate goals.

idential solar solutions. Learn how our customized solar power systems can reduce your energy bills, increase property value, and support a sustainable future. Get started with a free consultation

Construction of Palau's first utility-scale solar and battery energy storage facility was supported by the Australian Infrastructure Financing Facility for the Pacific through a AUD31.4 million financing ...

The largest solar and battery storage project in the Western Pacific has been installed in Palau, a 15.3 MW solar system with a 13.2 MWh battery.

Palau's first large-scale solar facility, completed in 2023, is performing to technical specifications but has faced grid limitations that require curtailment of up to 60 per cent of its potential output.

The construction of the solar farm and plant was completed on June 2, 2023, followed by a ribbon-cutting ceremony. The connection to the grid occurred on July 18, 2023.

KOROR, Palau (July 10, 2025) -- Australia has pledged \$16.4 million to support the next phase of Palau's transition to renewable energy, with funds designated to secure a battery energy storage ...

Solar electricity will be produced by a hybrid 15.3 MWdc (13.2 MWac) solar photovoltaic (PV) plus 10.2 MWac/12.9 MWh battery energy storage system facility. Extensive safeguards to protect Palau's ...

Solar flexible thin film modules Thin-film technologies reduce the amount of active material in a cell. The active layer may be placed on a rigid substrate made from glass, plastic, or metal or the cell may be ...
