What will PNG Power do for Papua New Guinea?

PNG Power's Managing Director Flagon Bekker has outlined the state-owned utility's plans to improve the stability and reliability of power supply in Papua New Guinea during a special Business Advantage PNG briefing. He elaborated on what will be the largest ever investment in PNG infrastructure - the nation-building Ramu 2 hydropower project.

Who is Papua New Guinea electrical company?

The company concentrated its business in the capital, supplying electrical goods to maintenance contractors, retailers and even private individuals. Products are well-outsourced and imported into Papua New Guinea from carefully selected and reputable overseas suppliers only.

What power plugs are used in Papua New Guinea?

In Papua New Guinea, power plugs and sockets (outlets) of type I are used. The standard voltage is 240 V at a frequency of 50 Hz. For more information, select the country you live in at the top of this page. We don't sell power plug adapters. We refer you to Amazon, where you will find a great selection of travel adapters.
