UEP plans to install LDES systems at two sites, State University of New York (SUNY) Oneonta in Oneonta, NY and Westchester County's Grassland Reservation in Valhalla, NY. The systems would ...

The Governor of New York, Kathy Hochul on Thursday (August 17) announced nearly \$15 million awards to four demonstration projects for advancing long duration energy storage (LDES) ...

We collaborate closely with stakeholders to assess how energy storage can enhance grid resilience and reliability. This evaluation is conducted through comprehensive techno-economic analysis and ...

A successful demonstration could enable market adoption of UEP's technology by proving decreased technology risk and reducing demand on grid infrastructure through reduced peak ...

The world's first 300-megawatt compressed air energy storage demonstration project has achieved full capacity grid connection and begun generating power on Thursday in Yingcheng, Hubei province, a ...

This program will fund technology demonstrations for energy storage solutions at the pilot-scale. The program will focus on non-lithium technologies, long-duration (10+ hour discharge) systems, and ...

Visit [USA.gov](https://www.usa.gov) to learn how the U.S. government is responding to Winter Storm Fern. The Energy Storage Demonstration and Pilot Grant Program is designed to enter into agreements to carry out 3 ...

The POLAR project aims to develop a portion of the brownfield site into an energy storage system that will be combined with a separate deployment of clean wind energy, improving the air quality and ...

Governor Kathy Hochul today announced nearly \$15 million in awards to four demonstration projects that advance long duration energy storage solutions that will help harness ...

Participating units of the new energy storage demonstration

Short duration energy storage is already supporting the grid, but continued deployment of variable renewable energy may push the requirement beyond the energy storage systems that exist ...
