Are solar panels illegal?

Technically, no state outlaws or bans solar panels; quite the opposite. Most states have solar access laws that forbid any agreement, covenant, condition, bylaw, or contract that outlaws or limits solar installations by Homeowners Associations (HOA) or other municipal bodies.

Can homeowners associations ban solar panels?

Many states have enacted "solar rights laws" that prevent homeowners associations (HOAs) from outright banning solar panel installations. These laws protect homeowners' right to generate clean energy while ensuring reasonable aesthetic guidelines are followed. Currently, 25 states have specific laws limiting HOA restrictions on solar installations.

Do I need a license to install solar photovoltaic systems in Minnesota?

Answer: Yes. A new law effective July 1, 2023, requires companies that contract with residential homeowners to install solar photovoltaic (PV) systems on homes in Minnesota be licensed as a residential building contractor or remodeler.

Can a new solar PV system be installed in a building?

Answer: No. The existing Rapid Shutdown system technology installed at the time of the initial installation of the solar PV system would be acceptable. NEC Section 690.12 addresses the Rapid Shutdown requirements for "new" solar PV systems installed in or on a building, and not to existing solar PV systems.

A new law effective July 1, 2023, requires companies that contract with residential homeowners to install solar photovoltaic (PV) systems on homes in Minnesota be licensed as a residential building ...
