Angestellt, PV support engineer, Sungrow Deutschland GmbH Abschluss: master of science, Friedrich-Alexander-Universität Erlangen-Nürnberg

Energy Management Specialist | Renewable Energy Specialist | Electric Vehicle and Charging Station Specialist | Senior Electrical Engineer | Senior Low Current Engineer | MEP Manager

Ruiqi Zhang is a PhD candidate whose research aims to develop novel solar cell technologies to support renewable energy.

Joined the team as Senior Engineer, leading global PV and energy storage projects for North America, Europe, and Asia. Coordinated cross-departmental teams to deliver medium to large-scale solar...

- o Designing and dimensioning photovoltaic systems and battery storage systems, simulating PV yields, and evaluating results.
- o Developing viable concepts in coordination with structural...

This study involved the analysis of a photovoltaic power generation project in Hubei Province to compare differences in the structural loads of photovoltaic supports as outlined in ...

A novel heat pipe-type PV/T system was designed and constructed in the present study to solve the freezing problem associated with the traditional photovoltaic/thermal (PV/T) system.

- o Cooperate with North American sales to provide pre-sales and in-sales technical support and bidding work. Including photovoltaic system simulation design, client technical discussion, product...

Experience in leading supplier and subcontractor management, including dictating scope of works, procurement and labor scheduling. Adept at using industry-specific software and tools to design,...
