How many EVs are there in Cambodia?

In December 2023, the EV stock was just 1,489 vehicles (MPWT, 2024). The hybrid EVs (HEVs), that combine an internal combustion engine (ICE) with an electric motor, have seen more significant adoption in Cambodia compared to fully electric cars. Hybrid vehicles account for about 2%-3% of total new vehicle sales in Cambodia.

How many electric cars are there in Cambodia?

In 2023, electric cars made up less than 1% of the total vehicle market. According to Cambodia's Ministry of Public Works and Transport, approximately 400 to 500 electric cars were registered by the end of 2023, a small number compared to the overall vehicle fleet, which numbers in the hundreds of thousands.

Are there EV charging stations in Cambodia?

In major cities, there are a relatively small number of public charging stations, but numbers are growing. Chinese automakers, including BYD and Great Wall Motors, have entered the Cambodian market, with the BYD e6 being a common model for commercial EVs.

What are the most popular EV brands in Cambodia?

The most popular EV brands in Cambodia include BYD, Toyota and Tesla (NASDAQ: TSLA), the report said. BYD entered the Cambodian market and opened its first passenger car sales center in Phnom Penh in 2020, introducing several NEV models.
