-----  
What is the best portable power supply?

After carefully researching all of the different options on the market today, we have concluded that the SUAOKI Portable Power Station is by far the best portable power supply out there. It comes with a multitude of charging ports and options, which means that if you have a device that needs to be charged, this unit will have you covered.

Do you need a portable power supply when camping?

While they provide plenty of power, they also provide plenty of noise and noxious fumes. Thankfully, there is a better option out there. Whether you want a backup in an emergency or just a way to power your phone when you are camping, you need to make sure you have the best portable power supply you can get your hands on.

How to choose a portable power supply?

Now, there is a lot to take into consideration when you are looking for a portable power supply. The battery type and battery capacity will determine how long your supply will run and how much it can charge. You also have to take into account for what type of wattage the supply is rated, since this will help to determine what you can power with it.

How long do portable power supplies last?

The batteries that are used in portable power supplies are usually lithium-ion batteries. Even if these batteries are not used constantly, they will still age. They do not have a terribly long lifespan. In fact, even if you barely use your power supply, the battery will probably only last you two to three years at full capacity.
